It is here in Ponte di Piave that our devotion to the land has been handed down from father to sons. Sisto, our grandfather, was one of the few to understand the intrinsic nature of the land and take up the challenge. A legacy which then passed down through the generations of Casa Baccichetto. Fine wine is made by a special bunch. First in the bunch is Franco, who with utmost passion and care looks after and preserves the roots of the family estate and winery. Luigina, Franco's wife, is lovingly committed to the land. Dedication and loyalty they have passed down to their three sons. Andrea, the eldest, and skilled oenologist, has picked up responsibility from Franco, managing the vineyards and overseeing the wine production. Marco manages the marketing and business development activities, balancing tradition and innovation. Enrico, the youngest, lends a great hand working alongside his parents and his two brothers with youthful enthusiasm and energy.

Aging: 5 months in the tank, 12 months in the bottle

After the harvest by hand exclusively and a careful selection, the grapes are gently worked in the press (soft pressing). The free-run must, clarified within 12 hours, is slowly fermented under controlled temperature (16°) and then aged in steel tanks in the following 5 months. The wine is then bottled in our estate and then aged in bottles for 12 months. Elegance, delicacy and absolute singularity are the characteristics of the Capri D.o.c. of Scala Fenicia. A white wine produced from native grapes and vinified in steel at a controlled temperature to preserve the varietal tones. It has a light gold color slightly tinged with greenish reflections, with a deep and composite perfume, persuasively citrusy, with hints of cedar, wild flowers and broom. In the mouth, it has a pungent, airy, savory freshness. Finally, the pronounced minerality gives completeness to a very pleasant sip.

ANTICA CASA VITIVINICOLA

A passion for wine that has been carried on year after year since 1965, when Franco Casetta decided to continue the traditional family activity. So they started to make known the brand of a winery located in Montà that had always put its trust in the Roero region and its terroir, which produces quality wines such as Roero Arneis Doc, Nebbiolo d'Alba Doc, Barbera d'Alba Doc and Piemonte Bonarda Doc. This adventure has led to a constant growth of the family-run winery, which is now in the hands of Franco's sons, Daniele and Walter.

MARTINEZ®

The Martinez winery was founded in 1866 in Marsala, the western most tip of Sicily, the territory which the DOC wine is named after.

The winery was named after the Martinez family who founded it and that, through a combination of innovation and tradition, has made its products unique for six generations. Over the years, the Martinez winery has remained true to its original product: Marsala, the most prestigious Italian liqueur wine.

More than one year in oak casks of various sizes. If stored away from heat and light sources, the wine will keep for an unlimited period and will continue to improve over time. After being opened, if the bottle is sealed again using a bottle stopper and stored in a dry place, away from heat and light sources, it will keep well for a number of months.

Il Drago e la Fornace is a winery located in Tuscany in the heart of the Chianti Senese area, in Colle di Val d'Elsa. It has its roots in a village surrounded by nature - la Fornace - which includes thirty hectares of red and white vineyards.

Our company produces the main Tuscan denominations of red and white wines (from Brunello to Bolgheri, from Vernaccia to Morellino, and of course all the Chianti wines), with particular attention to Sangiovese-based varieties, the main grape of our territory. To complete this range, we also have a line of Venetian sparkling wines and one of wines from Campania and Sicily.

PASTA DI GRAGNANO DOP

Our artisan pasta is enhanced by the quality of the semolina, obtained from 100% Italian wheat and by the slow and gradual drying process, made at low temperature.

It is an ancient process, which allows to maintain the organoleptic characteristics of the product, giving it a full-bodied consistency and the flavor of the past.

The passage in the bronze dies gives, finally, to our product, that unmistakable roughness and porosity that allow the sauce to bind perfectly to it. The tradition of the past is combined with the innovation of the art of pastamaking.

ARABICAFFÈ

COFFEE

Arabicaffè Italian company for coffee roasting. The company was born in 1953 as the result of the promising idea of three friends, Dr. Francesco Bonaccorsi, Dr. Vincenzo Musumeci and Mr. Santo Longo, to create a high quality product to be included in the Sicilian market, to meet the demands of a growing demand from the Bar and Restaurant sector.

Since then, supported by the fervor of the children of the three founding partners in respect of the original family and entrepreneurial values, that original intuition has been transformed into today's reality of Arabicaffè, a dynamic and constantly expanding company that produces, processes and markets its products on a large scale, guaranteeing the presence of its brand in Italy (Sicily, Calabria, Piedmont) and internationally (Holland, England, Germany, Switzerland, France, Spain, Belgium, Russia, United States, Canada, China).
